

## Marco Pesaresi Award for Contemporary Photography

The **Marco Pesaresi Award for Contemporary Photography** is a prize organized by the municipality of Savignano sul Rubicone in partnership with the municipality of Rimini and in collaboration with cultural association Savignano Immagini (management office).

This year, the Marco Pesaresi Award reaches its 22<sup>nd</sup> edition. The prize was founded in honour of outstanding photographer from Rimini **Marco Pesaresi** to promote concept-driven, innovative photo-reportage research and projects created in the context of contemporary photography and visual culture.

The competition is open to photographers of all ages and nationalities.

Entry is free of charge.

The award value is **5,000 euros** gross (i.e. it may be subject to tax and other social-security contributions).

The photographs should be presented as a portfolio ideally focusing on a single theme and should suggest or be part of a photographic project that the artist intends to complete using the funding provided by the Award. The submitted projects should be original and possibly not have been published and/or exhibited in the same format and/or content. Artists may also choose to enter the competition presenting a project that they are willing to fully develop thanks to the Award funding (i.e. a project plan including a strong, clearly stated idea and a budget-management scheme, but few or none photographs); that being the case, they may add to their submission photographs from a previous and/or unrelated project or portfolio for the Jury to see (which will not be considered eligible for the Award).

Applications that include AI-generated images are accepted if and only if the use of AI is explicitly stated when entering the competition and/or in the text(s) accompanying the images.

The photographic project that will be completed by means of the Award money will be exhibited at SI FEST next edition, SI FEST 2023.
